AYER'S

CHERRY PECTORAL

For the Cure of

COUGHS, COLDS, HOARSENESS, BRONCHITIS, WHOOPING-COUGH, CROUP, ASTHMA, AND CONSUMPTION.

Of all the numerous and obstinate complaints that are incident to our climate, none of them are more dangerous than those of the pulmonary organs, and none more generally fatal in their consequences. Nothing has ever been found which could compare in its effects with this Preparation. Others cure some times, but at all times and in all diseases of the lungs and throat where medicine can give relief, this will do it. It is pleasant to take, and perfectly safe in accordance with the directions. We do not advertise for the information of those that have tried it but those who have not. Families who have known its value will not be without it, and in timely use, they are secure from the dangerous consequences of Coughs and Colds which neglected, often lead to fatal consumption.

The Diploma of the Massachusetts Institute was awarded to this preparation by the Board of Judges in September 1847; also, the Medals of the three great Institutes of Art in this country; also the Diploma of the Ohio Institute at Cincinnati, has been given to the Cherry Pectoral, by their Government in consideration of its extraordinary excellence and usefulness in curing Affections of the Lungs and Throat.

Read the following opinion founded on the long experience of the eminent Physician of the Port and City of

St. JOHNS, May 8, 1851.

Dr J. C. Ayer—

Five years trial of your CHERRY PECTORAL in my practice, has proven what I foresaw from its composition, must be true, that it eradicates and cures the colds and coughs to which we, in this section, are peculiarly liable.

I think it equal has not yet been discovered, nor do I know how a better remedy can be made for the distempers of the Throat and Lungs.

I. J. BURTON, M.D. F.R.S.

See what it has done, in wasted constitution, not only in the following cases, but a thousand more.

Worcester, Jan. 24th, 1851.

Dr. Ayer—In the month of July last, I was attacked by violent, Dry Asthma, in the mines of California. I returned to San Francisco in hope of receiving benefit from a change of climate and diet. My Diarrhoea settled, but was followed by a severe cough—and much soreness. I finally abandoned the idea of derived benefit from the voyage. My cough continued to grow worse, and when I arrived in New York, I was at once marked by my acquaintances as a victim of consumption. I must confess that I saw no sufficient reason to doubt what my friends all believed. While upon my return I did take your truly valuable medicine with little expectation of deriving any benefit from its use. You would not receive these lines did I not regard it as my duty to state to the afflicted, through you, that my health, in the space of eight months, is fully restored. I attribute it to the use of your Cherry Pectoral.

Yours truly, WILLIAM W. SMITH.

Washington, Pa., April 12, 1848.

Dear Sir: Feeling that I have been spared from a premature grave, through your instrumentality by the providence of God, I will take the liberty to express to you my gratitude.

A cough and the alarming symptoms of Consumption had reduced me too low to leave me anything like hope, when my physician brought me a bottle of your "Pectoral." It seemed to afford immediate relief, and now in a few weeks time has restored me to sound health.

If it will do for others what it has for me, you are especially worthy of the benefactors of mankind.

Gratefully wishing your blessing, I am

Very respectfully yours,

JOHN J. CLARKE, Rector of St Peter's Church.

With such assurance and from such men, no stronger proof can be adduced unless it be from its effects upon trial.

WHITE ZINC PAINT,

After thorough test in Europe and the United States, has been found to retain its beauty and protective qualities longer than any other paint. For white purity and brilliancy it is unrivaled; it is free from all poisonous properties of common and dangerous in other pigments; will covert, equal weight from 40 to 100 per cent more space than lead, and is, therefore, much cheaper for the consumer. As an inside paint, it will not turn yellow, even when exposed to the sulphurous gases of coal fires or the foul air of ships. Their White Zinc for outside varnish produces the porcelain finish. Their

Brown and Black Zinc Paints

in a few hours form a hard and substantial coating upon wood, brick, iron, plaster, metallic surfaces, and are remarkable for their fire proof properties. They are specially adapted for marine purposes, having been found to resist the corrosive action of salt water, so destructive to other paints.

HERE IS YOUR REMEDY!

HOLLOWAY'S OINTMENT.

A MOST MIRACULOUS CURE OF BAD LEGS, AFTER 45 YEARS' SUFFERING.

Extract of a Letter from Mr. William Galpin, of 79, St. Mary's Street, Weymouth, dated May 6th, 1851.

To Professor Holloway.

SIR,—At the age of 18 my wife (who is now 51) caught a violent cold, which settled in her legs, and ever since that time they have been more or less sore, and greatly inflamed. Her agonies were distracting, and for months together she was deprived entirely of rest and sleep. Every remedy that medical skill advised was tried, but without effect; her health suffered severely, and the state of her legs was terrible. I had often read your advertisements, and advised her to try your Pills and Ointment; and, as a last resource after every other remedy had proved useless, she consented to do so. She commenced six weeks ago and strange to relate, is now in good health. Her legs are painless, without a seam or scar, and her sleep sound and undisturbed. Could you have witnessed the sufferings of my wife during the last 43 years, and contrast them with her present enjoyment of health, you would indeed feel delighted in having been the means of so greatly alleviating the sufferings of a fellow creature.

(Signed) WILLIAM GALPIN.

A PERSON 70 YEARS OF AGE CURED OF A BAD LEG, OF THIRTY YEARS' STANDING.

Copy of a Letter from Mr. Wm. Abbs, Builder of Gas Ovens, of Rashcliffe, near Huddersfield, dated May 31, 1851.

To Professor Holloway.

SIR,—I suffered for a period of thirty years from a bad leg; the result of two or three different accidents at Gas Works, accompanied by scorbutic symptoms. I had recourse to a variety of medical advice, without deriving any benefit, and was even told that the leg must be amputated, yet, in opposition to that opinion, your Pills and Ointment have effected a complete cure in no short a time, that few who had not witnessed it would credit the fact. (Signed) WILLIAM ABBS.

The truth of this statement can be verified by Mr W. P. England, Chemist, 13, Market-street, Huddersfield.

A DREADFUL BAD BREAST CURED IN ONE MONTH.

Extract of a letter from Mr. Frederick Turner, of Tenbury, Kent, dated December 13th, 1850.

To Professor Holloway,

DEAR SIR,—My wife had suffered from bad Breasts for more than six months, and during the whole period had the best medical attendance, but all to no use. Having before healed an awful wound in my own leg by your curative Ointment, I determined again to use your Pills and Ointment; and therefore gave them a trial, to her great comfort, for in less than a month a perfect cure was effected; and the benefit that my other other branches of my family have derived from their use is really astonishing. I now cheerfully recommend them to all my friends.

(Signed) FREDERICK TURNER.

The Pills should be used conjointly with the Ointment in most of the following cases:

Bad Legs	Corns (Soft)	Gall
Bad Breasts	Coxcom	Piles
Burns	Contracted and Stiff Joints	Rheumatism
Bunions	Elephantiasis	Scalds
Bite of Mosquitoes and Sand Flies	Fistula in Gout	Sore Throat
Coco-Bay	Glandular Swelling	Sore Nipples
Chilblains	Lumbago	Tumors

ISRAEL WASHBURN Jr.

The Glorious Fourth.

The anniversary of our National Independence was observed in this city on Monday, without any special organization, public display but every man celebrated the occasion in his own way, and every one, almost, seems to have done something to mark the day. The day was most beautiful throughout, and long before the early dawn the boys were out firing their muskets and giving vent to their patriotic impulses by discharging mimic cannons.

At sunrise the bells were rung and a national salute was fired.

The Fantasties were out in grand style and attracted much attention and they were certainly the longest legged of any of the tribe that has ever appeared in our city and cannot be beaten in that line, we are quite sure. They presented a very comical appearance. This company has become quite necessary now and quite established as a part of the fete attending the fourth of July, and very essentially aids in its variety.

The Steamer Boston brought up to the city an immense crowd of the good people of Rockland and Belfast, the extra trains on the railroad and the numerous carriages, coaches and other vehicles which came into the city brought in several thousand people, and for most of the day the streets were thronged with strangers.

The Eastern State took a young party down the river and bay.

The exhibition of the Cerafan and Circus was thronged three times during the day and evening and afforded satisfaction to a multitude.

The City Hall was thronged to overflowing in the evening to witness the performances of the company, under Mr. English, who are giving a series of entertainments.

The Brass Band discoursed music in West Market Square in the evening, and there was an excellent display of fire works.

The day passed off finely and no serious accident occurred to mar its enjoyment.

CONGRESS.

WASHINGTON, July 2.

Senate. The report on the diplomatic salaries, laid before the Senate this morning, contains a copy of a circular addressed by the Secretary of State, on the subject, to all the representatives of the United States in foreign countries, and their answers—every one of them complaining of the utter insufficiency of the allowance, and suggesting a large increase. The American Minister in Paris sends a table of salaries supposed to be allowed by the French government to their Ambassadors, for the year 1848.

I give you the allowance by France to its principal diplomatic representatives, in pounds sterling.—To Berlin, 4000; Brussels, 2200; Constantinople, 4000; St. Petersburgh, 6000; London, 10,000; Madrid, 4800; Rome, 4400; Naples, 3200; Turin, 2200; Washington, 3200."

The Secretary of State communicates the correspondence without comment or recommendation.

The following bills were taken up, debated, read a third time, and passed:

To indemnify the State of South Carolina for money expended for the United States in the Florida war;

A bill to establish an additional land office in Michigan;

A bill to refund to the County of Desmoines, Iowa, certain expenses of the district, which were paid by that County;

A bill for the relief of Z. N. Johnston.

The private calendar was then taken up. A bill for the relief Ira Day, a mail contractor in Vermont, was debated and passed.

A bill for the relief of Thomas Williams was passed.

The bill for the heirs of H. Watson coming up, Mr. Chase desired to speak upon it and wished it postponed.

Mr. Atchison, however, assured the gentleman that there was no principle of slavery involved in the bill. The negroes, who fought to have been made slaves were made free, just as the Senator's free soil, or humane policy would have them.

Mr. Chase still desiring the subject postponed, it was postponed.

A bill for the relief of the widow of J. J. Lynch was passed, and after a short executive session the Senate adjourned till Tuesday.

House. Mr. Orr, from the Land Committee, reported a bill to establish three additional land districts in Wisconsin. Passed.

The same gentleman reported a bill giving right of way and land to Indiana for a railroad from Springfield, Ill., to Terre Haute, Ohio.

Mr. Jenkins moved that the House refuse to lay the bill on the table—yeas 71, nays 85. Pending this business the morning hour expired.

The House proceeded to the consideration of the Pennsylvania contested election case. Mr. Ashe having made a speech, thus concluding the debate, the question was stated on agreeing to the resolution reported by the Committee on Elections, viz.: that the election at Danville, district, county of Montour, 34th Congressional District of Pennsylvania, was illegal and irregularly conducted, and the seat of the member is vacant, and that the Speaker inform the Governor of that State of the decision of the House, that a new election may be ordered.

Mr. Polk being unable to comprehend the report, moved to lay the whole subject on the table, and the question was decided in the affirmative—yeas 87, nays 74. So H. M. Fuller retains his seat, and H. B. Wright goes home.

The House went into Committee of the Whole on the state of the Union, and took up the amendment to the Deficiency Bill.

Mr. Wills gave his views upon the subject of non-intervention, maintaining the right of every nation to frame such laws and institutions as it may conceive to be best calculated to promote its political prosperity and social happiness, and expressed himself in favor of passing a resolution against intervention by foreign powers with those rights. The Committee rose, and the House adjourned.

WASHINGTON, July 3.

Senate. The senate was not in session to-day.

House. The House, after some little debate, postponed further consideration of the Springfield and Terre Haute Railroad Bill until the 13th inst.

Mr. Orr reported a bill granting to the State of Michigan lands for Railroads. This bill on motion of Mr. Stewart, was also postponed until 13th inst.

Mr. Freeman reported a bill attendatory of the bill discontinuing the offices of Surveyor Generals, abolishing land offices, &c., in certain cases. The bill was passed.

The conclusion of the House proceedings is telegraphed, to the Gazette as follows:

The House went into a committee of the Whole on the Deficiency Bill. Mr. Toombs of Georgia, rose to address the committee, and immediately concentrated general attention. It was his purpose to offer to the House and the country some considerations touching the approaching Presidential election. The task was not an agreeable one to him—He was free to declare he had no resentments, no animosities, no disappointments, but he was governed by the motives of public duty. The political organization with which he had acted for the last two years has declared the Compromise Measures a final settlement of the African slavery question, which, paramount to all others, had distracted and divided the country for the last fifteen years. He concurred fully in that declaration. It had the approbation of his judgment, and he should adhere to it with fidelity. That organization declared they would support no man North or South, who did not concur with them in this opinion. After a long agitation of fifteen years, the constituents desire repose and security, and the suppression of sectional strife, and they intend to have it if it can be had in connection with the Presidency. Last session many members of Congress headed by that great man who does less the nation now deplores, declared they would support no man who was not known to be in favor of the Compromise Measures, and would discountenance the agitation of slavery. He approved of this pledge, sometimes called in derision the "Mutual Insurance Company," and would adhere to it with fidelity.

Mr Toombs then examined the two additional planks Scott has put in the Whig platform of considering that presented by his friends broad enough for him. He thought extremely unfortunate that Scott has referred the people for his opinions on political questions to a long life, every line of that history is against Scott, and speaks trumpet tongued against trusting him in the South. He hoped Union men everywhere, the Union Whigs of Boston, Mass., and of all sections would unite in this last struggle for their principles and defend them in this great contest by electing some one whom they can confide with the peace and security of the Republic.

The Committee rose and the House adjourned till Tuesday.

Henry Clay.

No one who has any regard for the character of Henry Clay, or who takes any interest in his present situation, prostrated on the bed of sickness, which must soon prove fatal, can have read without a deep feeling of sympathy the account of the *bunch of flowers*, which he recently received from his wife, and which had naturally lost some of their beauty and fragrance on their way from his own loved Ashland to Washington. In the following lines, written almost impromptu, I have imagined the thoughts which occupied his mind on beholding this delicate testimonial of his wife's affection.

PAUDIN CLAY.

The flowers may not exactly bloom
Or shed as early the perfume,
As in the garden where they grew,
Or when they were newly culled by you;
But, while I know the hand was one
Which in our early days I won,
That plucked them from their native vale,
I will not for their blight be pained,
They still are fair and dear to me,
Because, dear wife, they came from thee
And though their beauty soon will die,
And withered all their blossoms lie,
It is a blissful thought to know,
The love will never lose its glow,
But still as pure and warm remain,
As when it found our mutual chain.
It may be thus I am, like them,
Forever parted from the stem,
That bears the flowers, whose sweets have been
The home we have so long possessed,
And, as they now decay and fade,
Sink, and shall soon be laid
Without life gentle eye and care,
It was their life and rising in charm.
Though friends are round me, who are kind
I feel to think I cannot find
Among the faithful circle there
Who home endearing gems compose,
While thus from thee far away I remove
And all the household I have loved,
The thought awakes with mournful pain,
We may not meet on earth again.
And this gloom there is a ray,
That shows the dawning of a day,
Within whose sunshine, clear and sweet
We shall rejoice once more to meet.
The flowers, which we have cherished here
Will then become more fair and dear,
And tho' they now must decay and die
And scatter'd o'er the earth may lie,
As spring revives the garden's hoped
Celestial clime will change their doom;
And they will brighter charms will rise
To bloom forever in the skies.
These thoughts, dear wife, my grief allay
As I by faith view my survey
And though for hand may never twine
Again with mine on earth for mine,
Thy lord will know breath shall blow,
Which has been my chief delight once,
And, when in power death's bowers
We meet to pluck their gentle flowers
How blest to find, transplanted there,
The charms, which here we've loved so dear
And as I wind up to which thy art,
Employed, as now, to cheer my heart,
To take from thy writing hand
The memento of thine unchanged love,
And from their fragrance be thy
The sweet, the purest that is on
In spite of all these hopeless storms
My heart is safe and free from alarms
And, while the clouds of life thicken
Those hopeless of a brighter
But since I know they make be safe
And my last sun I should shade
It is to remember the whole day
My heart yields to your sway
Forever and ever I remain
Yours most sincerely and fondly

SECOND DESPATCH.

ENGLAND.

Lovers of scandal have had a highly seasoned dish set before them this week, in the trial of a libel suit, brought by the notorious Dr. Achill against the no less celebrated Dr. Newman, the former an apostate from Roman Catholicism, and the latter from Protestantism. Achill was charged with many acts of seduction and debauchery, time and place being sworn to by his alleged victims, he on the other hand, making oath that he never saw any of the women in his life. A remarkable feature in the case was the introduction, in evidence, of copies of proceedings against Achill before the Inquisition, being the first time since the Reformation that the records of that tribunal had been introduced into an English Court of Law. The pleadings on both sides were noticeable for ability. After three days intense excitement on the part of the public, the jury brought in a verdict of libel proven on charge, 19th "A point of slight importance" and not proven on all the extraordinary charges above alluded to.

Parliamentary proceedings have been of secondary interest to the Achill affair. Wednesday and Thursday were merely occupied in debating a motion for the papers in connection with the charges against Ali Moorad, ex Amen of Scinde, who is asserted to have fraudulently altered the Indian treaty of Nowshera.

In answer to a question, Mr. Hamilton for the government, stated that negotiations between England, France and the United States, for the reduction of Atlantic Postage, was still pending, no answer having been given by the United States.

Lord Derby has announced that a Treasury order is about to be issued prohibiting the mixture of Chicory with coffee, but permitting the sale of Chicory separately.

At a meeting of Bavarian bond holders, resolutions were passed expressing confidence in the faith of the Republic, and suggesting to her government to hand back of the Guano found on the coast of Patagonia, as a source of revenue to liquidate our debt.

Captain Thornby, the defeated Arctic Navigator has published his opinion that the wreck seen in the ice of Davis Straits, is not the Erebus. He expresses the decided opinion that the wrecks were not the consorts of the missing ships.

In reply to the inquiry of Sir Charles Napier, which had been filed with the Admiralty, Sir Charles Napier, and Admiral Parker, have been appointed to the command of the Baltic fleet, and will sail on the 15th inst. Sir Charles Napier will be second in command, and after

warm along the Western shores of Baffin's Bay.

On Monday afternoon the new Cunard steamship Arabia, originally the Persia, was launched from R. Steele & Son's building yard, at Greenock. The Arabia is twenty-four hundred and two tons burthen with engines of the side lever class, 650 horse power.

The liabilities of Dixon Wylie & Co, are about £20,000.

The tories of Edinburgh are bringing forward T. C. Bruce, a younger brother of Lord Elgin as their Parliamentary candidate.

Nothing definite yet respecting the dissolution.

Mademoiselle Wagner, the French Prima Donna, has made up her quarrel with Lumley, the manager. So the opera rejoiceth. Mad. W has left England.

It is said that the Pasha of Egypt has arrived in London from Paris and had an interview with the Queen.

The University of Oxford has presented a splendid gold salver to the American Bishops now on a visit in England.

We learn from F. N. Osborne, Esq., projector of the New York Hand Electric Telegraph, that the enterprise meets with the first encouragement from English capitalists, and that Newall & Co. have contracted to lay the wire between New Foundland and Prince Edward's Island.

FRANCE

The event of the week is a further exhibition of restlessness on the part of the Corps Legislation against the dictation of the President. On Tuesday the Assembly laid the Budget under consideration, and refused the present to some of the Ferm. Louis Napoleon, who was watching the proceedings from a private box, thereupon sent a note to the president stating that the Assembly were overstepping their powers in refusing assent to some items of taxation by the Council of State. The meeting broke up in confusion, but next day the Assembly, acting so far independently as to throw overboard the grant of 1,745,000 francs for the fallen of Satsaire. The difficulty caused a temporary fall in the funds.

M. Casal, chief of the Nauvon Fraisse, announced that he will leave London on the 8th for Nauvon, further that the fraternity legion applying to naturalization as American citizens, and found another socialist colony in Texas.

Changarnier, Bedeau, Lamoricière, and Leflo, in consequence of their refusal to take the oath are outlawed, but are allowed to take their half pay.

ITALY.

SPAIN.

According to a Barcelona paper the French exiles in Spain are ordered to remove beyond the Ebro. Ministerial rebels as usual continue to excite the people.

PORTUGAL.

The question of the saltmonopoly at Setubal had occasioned the liveliest discussions in the Cortes.

The U. S. frigate Cumberland, Commander Stringham, arrived at Gibraltar on the 8th, 21 days from Boston, and sailed on the 16th for the Mediterranean.

PRUSSIA.

A meeting of the Zollverein Congress was held on Monday, but no material progress made since the breaking off of negotiations with Austria. It has already been stated that Austria has abandoned her demands.

☞ On the 5th while Abijah Dunbar was at supper at his house, Mr. James Hurd, entered in a state of intoxication and while the family of Mr. Dunbar were for a moment called into the garden, an attack was made by Hurd upon Mr. Dunbar and he was seriously injured in the face and chest. On the family returning to the house Mr. Dunbar was prostrate upon the floor, bleeding at the mouth. It is thought that he will recover but his injuries are quite serious. Mr. Dunbar has, for years been the friend of Hurd and employed him to labor and assisted his family, but rum works horrid states of mind and affections in those who make use of it.

☞ We learn that a Mrs. Mann of Kirkland, the mother of four or five children, had some difficulty with her husband who had been away at work, but had returned home to spend Independence day, and hung herself. A Coroner's jury was called, but we have not learned their verdict.

☞ Hon. Daniel Webster is to receive a public reception in Boston to-morrow afternoon on his arrival home from the scene of his public duties. It will doubtless be a very brilliant affair in which Boston will exceed herself.

☞ One of the transparencies at the Whig ratification meeting in Brooklyn, bore the following:

We'll Fence the Loco candidates,
And on the gulf we'll lay 'em,
The People highly estimate
The Choice of Scott and Graham.

NEW-ENGLAND MUTUAL
FIRE INSURANCE COMPANY,
Incorporated by the Legislature of New Hampshire, December, 1844.

OFFICE, *Low's Block, Concord, N. H.*

Seth Eastman, Esq., President

DIRECTORS:

SETH EASTMAN, WILLIAM PRESCOTT, JOSEPH LOW, JOHN P. JOHNSON, ABRAM J. PRESCOTT, AMOS HADLEY, *Secretary,* JOHN WHIPPLE, *Treasurer.*

THIS Company has been in operation nearly seven years, and has now at risk about $2,000,000, with a Capital Stock of $200,000. The Rates of Insurance have been so modified as to range *from one to fifty per cent,* thus affording all the advantages, with none of the disadvantages, of classified Companies. Owing to this equitable adjustment of the Tariff of Rates, this Company holds out the strongest inducements to those who wish to effect insurance on Farm and Mercantile risks. The Directors have determined not to continue an extensive insurance of the extra hazardous class of property. We can say, therefore, with the utmost confidence, that no Company in the country is stronger or safer than this. Applications for insurance, on all kinds of property, or losses incurred, can be made to the Secretary, or through an authorized Agent, which will be taken at the lowest safe rate, for that class of property, and for any term of time not exceeding four years.

SETH EASTMAN, *President.*

Cholera!

THE first features of the season for Bowel Complaints have appeared, and a few cases so nearly approaching Cholera as to be of a most frightful and extremely dangerous character have shown themselves. No medicine has ever yet been offered to the public which has been found to possess one hundredth part the worth of

HARDY'S CHOLERA PREVENTIVE,
And effectual cure for Cholera Morbus, Dysentery and Diarrhea.

Cholera, in its first stages, has always yielded to it, and I will warrant it a sure, safe, and speedy cure for the other complaints named—come to me and I will show the strongest proofs of the correctness of this statement.

CARRIAGES!

Patronise Home Manufactures.

WE are manufacturing Light Carriages of every description, which we are prepared to warrant equal to any in the market, without any exception. We have purchased the right to use a patent attachment for Four Wheeled Carriages, whereby Carriages can be made to turn in a very small compass, describing a circle of 6 feet, also avoiding the grating noise occasioned in turning (which is desirable,) as the wheels do not come in contact with the body. We wish it understood that we hold ourselves responsible for the failure of our work in consequence of the use of poor stock or work.

We also manufacture Elliptic and Side-Springs of a superior quality.

Jobbing in every branch promptly attended to at fair prices.

A few more left and for sale as above.

WE have on hand a few Light Chaise, Phaetons, and Concord style Wagons equal to the genuine article. Also, Light Buggy Wagons, all of our own make, which we shall sell low for cash, or approved credit.

25,000 Sold per Year!

The Unsurpassed, and Unsurpassable

Bay State Stove,

OF SIX SIZES, of heavy and smooth casting—price from $15 to $50—celebrated for its whole cooking apparatus, carrying off the smoke in broiling, and not to be exceeded in baking, frying, boiling, &c., &c., or in durability and economy—may be had as heretofore, at the well known and long established

Stove, Furnace and Range
DEPOT,

Nos. 80 & 82 MAIN STREET, and 2 and 4 WALL STREET, OF

N. JOHNSON,

Who is SOLE Agent, and always has been, for this market, for the sale of the celebrated Stove above named, of which 25,000 were sold the past year, and of which some 30,000 will not be more than sufficient to supply the demand the present year.

The BAY STATE is sold and warranted as usual. Returned after an unsatisfactory trial of 30 days, the price paid will be refunded, together with interest and cost of returning.

Persons purchasing the BAY STATE, and desiring repairs, are not subjected to the trouble of sending to Rhode Island or New York for castings, nor to wait in Bangor for them. AS I HAVE THEM ON HAND.

A CHALLENGE OF $50

Is proposed, that 50 Stoves of six sizes, of any other pattern than the BAY STATE, (for which I am sole Agent,) cannot be produced which will compare with the 50 I now have on hand, in thickness and smoothness of Castings, or in facility and capacity of broiling, baking, boiling, or other cooking requisite.

The public are specially requested not to mistake a Stove called the "IMPROVED BAY STATE," which is a cheaper and inferior article, thinner and less durable castings, and which is sometimes advertised without the word "improved" as a prefix, for the original and genuine BAY STATE, which has been so generally and thoroughly tested and admired.

All other kinds of STOVES constantly on hand, as above, which will be sold at reduced prices.

The Oriental Beverage.

THE SHERBET of SHIRAS is unrivalled in its aromatic delicacy of flavor—imparting to the nervous system an agreeable tone and vigor. Its ingredients are all Vegetable, and were never before used in the manufacture of any other beverage. It combines all the agreeable qualities of a cooling refreshing beverage, with the renovating and nourishing properties of Lisbon Porter.—The most delicate female can partake of it freely with impunity, as it may properly be ranked among the most innocent of all beverages. It is the only exhilerating drink allowed by the Mahommedan laws, under which all vinous and spirituous liquors are prohibited.

COOKING STOVE

THE best Cook Stove ever introduced to this or any other people.

Having secured the sole agency of this very desirable Stove, I take great pleasure in offering it to my customers and the public. This Stove was invented expressly for the eastern market, by those experienced and expert Stove manufacturers, Messrs. Estes & Whitcher, who know, and have appreciated the wants of this unlicensed people. It is now offered to the public with the fullest confidence in its merits, and its superiority over every other Cooking apparatus ever introduced. Its convenience for Boiling, Broiling, Frying, &c., are not surpassed, and its extensive and beautiful Oven for Baking and Roasting, will at once recommend itself to the Ladies. One very important feature is, it is very stout and smooth castings, and being manufactured in this city, can at all times be repaired, if ever necessary, at a trifling expense without subjecting one to wait for castings to be ordered from New York, Rhode Island, or elsewhere. Every Stove is warranted one year, and one not giving entire satisfaction may be returned and the money will be refunded after 30 days trial.

—ALSO—

A great variety of other patterns of cooking Stoves, such as the

Our State, Bay State, Empire State, Granite State, State of Maine, &c.,

All or any of which will be sold at extremely low prices.

Elevated Oven Stoves—Hampden 3 and 4 Boiler and two Oven—Boston two Oven Stoves, Forrest, Queen, &c.—and the very beautiful pattern of Cottage Parlor Cook Stove, and in fact every variety of Stove for Cooking or warming, worthy of notice, can be found at the Central Street Stove and Furnace Depot, No 15, 17 and 19.

Moore's Essence of Life.

THE Great Remedy for Coughs—Colds—Whooping Cough, and Bowel Complaints—The Whooping Cough can be cured in a week if taken at the Commencement of the disease. Thousands die annually who might be saved if they checked their Colds at the beginning. This can be done by the use of MOORE'S ESSENCE OF LIFE—this is no humbug—it has the good that it has accomplished the past few years in your own vicinity, in those afflicted with the Whooping Cough and Bowel Complaint. It is sure to cure if taken in season. If the reader has a child afflicted with the Whooping Cough, let him obtain one bottle and try it, and if he that proves satisfactory obtain another, persevering in its use until a cure is effected—you cannot help being satisfied. For common Colds and Coughs it is as sure to the cure. Now why will you suffer when a sure cure is to be easily effected—why will you let your children die when a remedy can be obtained so easily? Look out and get not imposed upon—prepared by E. E. HAYWARD, Hadley, Mass—and sold by H. D. Ball, F. Brown, Wm. Mann, A. P. Guild, Bangor, Mrs. L. Mudgett, North Prospect, and by the Druggists in nearly every town in Maine.

PATENTS.

American and Foreign Office.

AGENCY FOR BUSINESS WITH U. S. PATENT OFFICE, *WASHINGTON.*

No. 22 State Street, Boston.

IN 1840 the subscriber was appointed by the Commissioner of Patents, Agent of the U. S. Patent Office, in accordance with the 10th Section of the Act of '37.

Having discontinued the Agency for the transmission of Models, and adopted a more expeditious mode of forwarding them to the Patent Office, *which by a Patent can be procured about six weeks earlier* than the ordinary way, I am now prepared to forward them free of expense—to prepare Caveats, Specifications, Assignments, and all the necessary Papers and Drawings for Patents, and to render advice on legal and scientific matters respecting the same. Patents secured in Europe and other countries.

By application at this office, inventors are saved the time and expense of a journey to Washington and delay thereon, as well as all personal trouble in obtaining their patents. They also have the advantage of *fairly* explaining their inventions, and (consulting in regard to them) *matters in general of paramount importance in order to obtain correct specifications and claims.* The experience of sixteen years practice, an extensive collection of rare works, decisions, &c. on mechanical subjects, the Patent Laws, and patents of different countries, collected at much expense during the long time this office has been established, together with accounts here kept of inventions patented at Washington, enable the subscriber to afford to inventors desirous of procuring Patents, assistance and information which is of the respects might be difficult of attainment.

R. H. EDDY, Solicitor of Patents.

WASHINGTON, JULY 21, 1849.—During the time I occupied the Office of Commissioner of Patents, R. H. EDDY, Esq., of Boston, did business at the Patent Office as Solicitor for procuring Patents. There were few if any persons acting in that capacity who did so much business before the Patent Office, and there were none who conducted it with more skill, fidelity and success. I regard Mr Eddy as one of the best informed and most skillful Patent Solicitors in the United States, and have no hesitation in advising inventors that they cannot employ a person more competent and trustworthy, and more capable of preparing their applications to a form to secure for them an early and favorable consideration at the Patent Office.

Late Commissioner of Patents.

DR. FONTAINE'S BALM OF A THOUSAND FLOWERS.

For the Toilet, the Nursery, for Bathing, and many Medicinal Purposes.

HIGHLY perfumed by its own ingredients. Recommended by the faculty of almost every European city, and established under the patronage of almost every Royal Court in London and Paris, and thousands of individuals who make daily use of it in New York, Philadelphia and Boston—it is the greatest luxury a lady or gentleman could wish for, the improvement of health, for comfort and personal embellishment, and its delicate soothing sensation, and the delightful softness it imparts to the complexion.

We give a few of the prominent properties of the

Balm of a Thousand Flowers!

already well established by actual experience.

FIRST—This Balm renovates every defect of the Complexion.

And establishes to its stead Beauty and Health, at the time when both, by the changes of age, or freaks of nature, or disease, have been obscured and undermined—it cleanses the skin, and draws to the surface all impurities, and every species of pimples and blotches; also removes tan, sunburns, salt rheum and freckles, imparting to the skin its original purity, and an unsurpassed freshness, rendering it clear, smooth, and white.

SECOND—It promotes the Growth and increases of the Hair, causing it to Curl in the most natural manner.

It cleanses the head (from dandruff), giving vigor, health and life to the very roots of the hair.

THIRD—It is a superior article for Shaving, being superior to all descriptions of Soaps, Creams, Pastes, &c.

As a DENTRIFICE *for cleansing the Teeth*, it is by far the most medicinal of any compound yet discovered, preventing decay, relieving pain, ulcers and cankers, and rendering the teeth as white as alabaster. For bathing, for suffering infants, and for adults to promote sweetness of body, cleanliness, health and strength, and to prevent eruptions, &c., there is no article more suitable than this Balm. It may be used in soft or hard, or salt water.

PULMONARY BALSAM,

The Great COUGH REMEDY.

Many years of experience, and more than a Hundred Thousand Cures of Consumptive Complaints, have proved to its unpolluted satisfaction of all persons who have become acquainted with this *wonderful remedy*, that it is greatly superior, because it *anything else heals, and more certain in curing Consumption of the Lungs*, than any other Remedy in the world. We now, however, are ready to say that Consumption can not be cured. But that the opinion of many or the few, we shall not attempt to argue with such; but, this we do say, and in more than a hundred cases, it can be proved to thousands of cases, that this medicine has cured *Coughs and diseases which, before the cures were effected, were called real Consumption*, and which were stamped with the seal of death, and were in all *respects like the symptoms of those who die, and who dead are said to have died* with that fatal disease Consumption. This Balsam has healed thousands of persons who were said to be hopelessly afflicted—who had *hard, dry, rheumatic Coughs—Pains in the Breast, Side, and Back—Difficulty of Breathing—Purulent Expectoration—Night Sweats—Hectic Fever—Chills—Loss of Flesh and Blood.* Persons having such complaints have been cured after it was said they could not live a week longer. This Balsam has cured such who were supposed to be in the dying stage, but, by the use of the remedy, they now enjoy good health.

This Balsam is a regular compound. It is pleasant to take, and *never does injury* in any stage of the disease under any circumstances. It effects in wonderful and *almost miraculous Cures by Purifying, Strengthening, and Invigorating the whole system, by equalizing the circulation* and producing a healthy action—thus *relieving Cough—soothing the Nerves—and healing the Lungs.* Expectoration ceases. It Cures the following diseases, viz:—

Consumption,

COUGHS and *Colds, Bronchitis, Asthma, Spitting of Blood, Breaking of the Lungs, Pains in the Breast, Side and Chest, Hoarseness, Night Sweats, Palpitation of the Heart*, and all FEMALE WEAKNESSES and Complaints arising therefrom, Liver Complaint, Infantile Complaints, &c.

☞ For Proof and particulars of Cures, see our Pamphlets and *Handbills*—all our Agents have them to give away.

FROM CERTIFICATES.

Copies of Letters received by the Agent of M. Lavasse.

From Miss A. L. Brown, of 31 East Broadway, N. Y.—"The Recipes contained in M. Lavasse's Secret of Beauty are excellent. The directions for removing freckles are explicit—so also are the instructions about the teeth and gums."

From Mrs. Sarah Lyon, 620 Houston St. N. Y.—"M. Lavasse's instructions about making the skin fair and smooth, are excellent. I speak from my own experience. I am now over 60 years of age, and my skin had become quite sallow and wrinkled. I used M. Lavasse's system and remedies as printed in his Secret of Beauty, and now my skin is quite fair and smooth."

From Mrs. J. M. Agar, 993 Bleecker St.—"I must recommend M. Lavasse's directions for Sweetening the Breath and Beautifying the Teeth—They have been adopted in my family with astonishing success."

From Mr. H. L. Smith, 204 Grand St. N. Y.—"I have tried Mr. Lavasse's plan for hastening the growth of Whiskers, Hair, &c. The directions he gives in his Secret of Beauty, are worth a fortune to all who want whiskers, &c."

Mr. Stephen Silswart, of Newark, New Jersey, says that his eyesight has been greatly improved by adopting M. Lavasse's directions and treatment for weak eyes. His friends have also tried the system with great benefit.

His work is the most popular thing ever printed. All ages, classes and sexes unite in its praise. He is selling thousands of copies of his work every month.
